<sup>&</sup>lt;sup>1</sup> Any translation of the protocol should be assigned the same date and version as those in the original document.

<sup>&</sup>lt;sup>2</sup> International Standard Randomised Controlled Trial Number. Sponsors may wish to use an International Standardised Random Controlled Trial Number (ISRCTN) to identify their trial in addition to the EudraCT number; for instance if their trial is part of a multinational trial with sites outside the Community. They can obtain the number and guidance from the Current Controlled Trials website <a href="http://www.controlled-trials.com/isrctn">http://www.controlled-trials.com/isrctn</a> to which there is a link from the EudraCT database website <a href="http://eudract.emea.europa.eu/">http://eudract.emea.europa.eu/</a>. When available they should provide it in Section A.5 of the application form.

<sup>&</sup>lt;sup>3</sup> US National Clinical Trial (NCT) Numbers required on the FDA clinical trial application form.

<sup>&</sup>lt;sup>4</sup> For a resubmission following previous withdrawal of an application or unfavourable opinion of an ethics committee, or previous withdrawal of an application or refusal of a request by the competent authority, enter a letter in the sequence, A for first resubmission, B for second, C for third et seq.

#### D INFORMATION ON EACH IMP.

Information on each 'bulk product' before trial-specific operations (blinding, trial specific packaging and labelling) should be provided in this section for each investigational medicinal product (IMP) being tested including each comparator and each placebo, if applicable .For placebo go directly to D8. If the trial is performed with several products use extra pages and give each product a sequential number in D1.1 If the product is a combination product information should be given for each active substance.

D.1 IMP IDENTIFICATION		
Indicate which of the following is described below, then repeat as necessary for each of the numbered		
IMPs to be used in the trial (assign numbers from 1-n):
