Mr Ch. Karathanos, Advisor of the Minister of Health

Chalandri, December 23, 2014

Subject: Reimbursement Criteria for the preparation, revision and supplementation of the positive list of prescribed medicinal products - Prompt application of the M.D.A82961/9-9-2013 (Gov. Gazette 2219/2013)

Dear Minister,

Further to our letter dated 12/12/2014 titled "*Reimbursement Criteria for the preparation, revision and supplementation of the positive list of prescribed medicinal products*" we would additionally like to point out the conditions of unfair competition that have emerged following the application of different criteria for inclusion in the positive list.

More specifically, as published in the Gov. Gazette 3376/16.12.2014, certain products were excluded from the positive list of prescribed medicinal products, since the criteria of the M.D. 82961/9.9.2013 (Gov. Gazette 2219/2013) were not implemented, that had been taken into account for the assessment of the products included in the respective positive lists with the Gov. Gazettes No 1277/20.5.2014, 1894/11.7.2014 and Gov. Gazette 2336/29.8.2014 while law 3259/2014 was in effect.

Following the above, we request that the M.D. 82961/9.9.2013 continues to apply, in order to promptly restore order in the market with at arms' length conditions for all parties involved.

Yours sincerely

Paschalis Apostolidis
Vice President of SFEE

Michalis Himonas
General Manager of SFEE
