

To  
The honourable  
Mr Ioannis Varoufakis, Minister of Finance  
Mr Ioannis Stournaras, President of the Bank of Greece

Cc: P. Kouroublis, Minister of Health  
D. Kontos, President of EOPYY

Chalandri, June 30, 2015

**Subject: "Exception of pharmaceutical products from capital control"**

Dear Honourable Minister,  
Dear Honourable President,

During the part hours, the country experiences difficult times and it is the duty of all of us to protect Public Health and Greek patients. To that end, it is imperative to **exempt all procedures for the management of the offer of the pharmaceutical products along the string of capital control**, especially in the case it is necessary to import ready-to-use pharmaceutical products and raw materials especially from abroad, which may constitute an obstacle for the patients' access to their treatment.

The unobstructed continuance of the management procedures for the offer of pharmaceutical products is a direct and urgent priority.

Yours faithfully

Paschalis Apostolidis  
President of SFEE
